Project Information Memorandum

COASTAL MASTER PLAN

UTTAR KANNADA, UDUPI AND DAKSHIN KANNADA

GOVERNMENT OF KARNATAKA & KTVG INITIATIVE

1. Introduction

The three coastal districts of Uttar Kannada, Udupi and Dakshin Kannada in Karnataka contribute to about 16% of the total tourist inflow and 8.6% of international visitors in the state. Beach Tourism is one of the emerging tourism products for the State and its share is expected to become more significant in the coming years.

Coastal Karnataka Tourism circuit comprises tourist destinations in and around Mangalore, and the rest of Dakshina Kannada, Udupi and Uttar Kannada districts along the coastline extending up to Goa over a length of 320 Kms. This stretch has about 90 beaches with varying aesthetic potential.

The Department of Tourism, Government of Karnataka (DoT) has identified 42 beaches for development based on tourism potential. Out of the 42 beaches identified by DoT, project proposals for developing 23 beaches have been approved by Government of India (GoI) for

development under Central Funding Assistance of about Rs. 50 cr. These 23 beaches are spread across the 3 coastal districts as follows:

- Udupi District: Total 11 beaches identified by DoT for development; Gol approval for 6 beaches
- Dakshin Kannada District: Total 10 beaches identified by DoT for development; Gol approval for 5 beaches.

It is expected that Karnataka with all its Coastal assets can attract a much larger number of tourists across various facets (scenic beauty, marine biodiversity, local fishing practices, nature trails, diversified cultural and historic heritage etc.) as well as special interest activities such as nature photography, rural and village culture and lifestyle experiences, rural tourism, adventure tourism, water sports etc., to develop a holistic tourism product.

This will enable development of commercial businesses around tourism, attract anchor investments in hospitality, and generate employment opportunities in the region. However, the prospective tourism development (including private investments, and supporting public infrastructure) should be planned and implemented in strict compliance with the coastal zone regulations and other

COASTAL MASTER PLAN

environmental laws and regulations. It would also be necessary to strike a balance between development and the ecology and biodiversity of the coastal region.

Therefore, it is imperative for formulation of an integrated Coastal Master Plan ensuring conservation of environmental/ecological resources but with an aim to promote coastal tourism development (including community-based tourism).

2. DAKSHIN KANNADA DISTRICT

2.1 Introduction

2.1.1 Profile

Dakshina Kannada is sheltered by the Western Ghats on the east and bordered by the Arabian Sea on the west. It is bordered by Udupi District to the north, Chikkamagaluru district to the northeast, Hassan District to the east, Kodagu to the southeast, and Kasaragod District in Kerala to the south. Mangalore is the headquarters and chief city of the district.

Ensnconced on the coast, Mangalore makes a pleasant and convenient stop between Goa and Kerala. With its narrow, winding streets fringed with coconut palms, quaint houses with terracotta-tiled roofs, beautiful beaches, temples and churches and the aroma of spicy coconut curries, it has preserved its old-world charm. Mangalore was a major seaport and ship-building centre during Hyder Ali's time.

Today it is a business and commercial centre and Karnataka's major port for the export of iron ore, coffee, spices and cashew.
